EXPERIENCE

Senior Frontend Developer

Falabella Financiero

📍 Chile
🔗 https://fpay.cl/

- Wallet for LATAM
- Collaborating in Frontend Core using ReactJs stacks
- Material-UI - Styled Components - Jest & Enzyme Testing
- **Achievements:** Developed and implemented "Account Movements" and "Reports" sections, enabling thousands of users to access their balance summaries daily.

Senior Frontend Developer

Kinsper

📍 Mexico
🔗 https://www.truepayprotects.com | https://vetinsure.vercel.app

- Managed frontend development for Vetinsure and Truepay projects.
- Led deployment using AWS and Vercel, programming with Typescript and JavaScript, and frontend development with Next.js.
- Optimized backend processes with Prisma and database management using Neon Postgres.
- Designed user interfaces with Material UI, Tailwind CSS, and Flowbite, enhancing user engagement and satisfaction.
- **Achievement:** Successfully defined the technological stack, developed, and implemented two projects, ensuring timely and successful delivery.

Senior Frontend Developer

Danone

📍 Mexico
🔗 https://mipedidodanone.com.mx/

- Developed B2B e-commerce for Danone Mexico.
- Improved SEO by integrating structured data and enhancing performance.
- **Achievement:** Led the definition of the frontend technological stack, project development, and implementation, integrating it with Magento, ensuring its timely completion and compliance.

Technical Lead

Lapso

📍 Mexico
🔗 https://www.lapzo.com/

- Online learning platform
- Technologies: ReactJs, Material UI, Jotai, Storybook.
- **Achievements:** Led the transfer of an online learning platform for enterprise clients from React to a Monorepo structure, implementing a new design. Coordinated tasks using Jira, documented progress and decisions in Confluence, and applied Agile Methodologies. Collaborated with a cross-functional team of frontend and backend developers.

SUMMARY

Experienced Frontend Developer based in Buenos Aires, Argentina, with a track record of success in leading and contributing to high-impact projects. Specializing in ReactJs, I have collaborated on projects for prominent companies like Falabella Financiero, Danone, and Skydropx, where I enhanced team performance, improved SEO, and developed innovative solutions. My experience extends to managing projects end-to-end, utilizing a range of technologies. Passionate about continuous learning and delivering exceptional results, I am now seeking new challenges and opportunities for growth in a dynamic environment.
